Project Name	CreditCardApproval Prediction
Maximum Marks	4 Marks

Empathy Map

For a **Credit Card Approval Prediction System**, an **Empathy Map** helps understand the users (customers applying for credit cards and bank employees) — their needs, frustrations, thoughts, and behaviors.

SAYS	THINKS
I want to know whether my credit card application will be approved quickly.	Will my income and credit history be enough for approval?
User	

DOES

- Applies for credit cards online/offline

FEELS

- Anxious about rejection
