

Demonstration of Proposed Features

Date	15 July2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	Dataset Collection & Analysis	Collected and analyzed credit card approval dataset with applicant information.	Implemented	Yes	Successfully performed EDA and data understanding.
2	Data Preprocessing	Handled missing values, removed duplicates, and encoded categorical variables.	Implemented	Yes	Dataset prepared for machine learning models.
3	Machine Learning Model Training	Developed Logistic Regression, Decision Tree, Random Forest, and XGBoost models.	Implemented	Yes	Compared models based on accuracy.
4	Model Selection & Prediction	Selected the best-performing model and generated predictions.	Implemented	Yes	Decision Tree and Random Forest achieved highest accuracy.
5	Flask Web Application	Developed a web interface for entering applicant details and predicting approval status.	Implemented	Yes	User-friendly prediction system created.
6	Cloud Deployment	Deployed the application on Render and hosted the project online.	Implemented	Yes	Application accessible through deployed URL.

Feature Implementation Summary:

Metric	Value
Total Features Proposed	6
Total Features Implemented	6

Metric	Value
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
