

Project Demo Planning

Date	15 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project and explain the problem statement of manual credit card approval evaluation.	2	Kammarapalli Meghana
2	Dataset & Data Analysis	Explain the dataset, features, and exploratory data analysis using graphs and visualizations.	3	Kammarapalli Meghana
3	Machine Learning Models	Demonstrate Logistic Regression, Decision Tree, Random Forest, and XGBoost models and compare their accuracies.	3	Kammarapalli Meghana
4	Flask Web Application	Show the user interface and explain how user inputs are collected for prediction.	2	Kammarapalli Meghana
5	Live Prediction Demo	Enter sample applicant details and display the prediction result (Approved/Rejected).	3	Kammarapalli Meghana
6	Deployment & Conclusion	Demonstrate the deployed application on Render and discuss future enhancements.	2	Kammarapalli Meghana

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an automated credit card approval prediction system in the banking sector.
2	Solution Overview	Describe dataset preprocessing, machine learning models, and Flask architecture.
3	Live Feature Demonstration	Show the web application, enter sample data, and display prediction results.
4	Q&A Session	Answer questions regarding implementation, model accuracy, and future improvements.
